

Date:

Wednesday Challenge Form

Group Members: Elisabeth, Carlos, Robert,
Max

Problem Statement: Build a structure made of just marshmallows, graham cracker, and pretzels, from a sketchup made by another group.

Approach: We first examined the sketchup given to us and then we copied the sketchup and made the structure in real life.

Solution: the first place team their structure Was accurate

Lessons Learned: if we where to do it again I would make the structure more functional
