

Date:

Wednesday Challenge Form

Group Members: Elisabeth, Evan, Matty,
Lucas

Problem Statement: Create a gadget that we can hand out at the robotics challenge.

Approach: We thought of multiple ideas and drew out many. We thought of things having to do with the challenge and things they have done in the past and settled on little gadget that is just a little fidget thing.

Solution:

Lessons Learned: apply real life situations to our challenges. Take ideas and make your creation better.
